### **Towards Mitigating Misinformation: A Structured Dataset of Fact-Checked Claims from News Media, IEEE, 2024**

Misinformation online is a serious threat, rapidly influencing public opinion and decisions. To combat this, researchers created the "Factrix" dataset by collecting and labeling news from fact-checking websites, aiming to train AI models to identify false information in text and potentially images, while also tracking misinformation trends over several years.

## Research Experience

---

**Research Intern, Society for Data Science** May 2023 – May 2025

- Conducted research on the diffusion of Misinformation across various platforms.
- Created a Dataset Factrix through the process of scraping various news sites such as IndiaToday, ANI etc to help train models
- Performed a Trend Analysis on the spread of fake news through methods such as Topic Modelling
- Co-authored a paper on the Factrix Dataset and the analysis of diffusion of Misinformation.

### OSFM - Net

[github.com/RishiSpace/osfm](https://github.com/RishiSpace/osfm)

- Developed a tool that system administrators can use to remotely monitor and control multiple systems in a lab.
- Allows the admins to :
  1. Remotely Install and Uninstall Programs
  2. Remotely control multiple systems (using RDP)
  3. Mass-execute custom PowerShell Commands at the Admin's Discretion
  4. Provides the ability to automatically scan and fix Corrupted OS System files

### FastWrite

[fastwrite-py.vercel.app](https://fastwrite-py.vercel.app)

- Developed a python module that allows seamless documentation of entire code repositories for developers
- This tool allows Developers to:
  1. Process Code Files: Extract and list Python files from a ZIP archive
  2. Generate Data Flow Diagrams: Create a data flow chart (in Graphviz format) by analyzing Python code using the AST module
  3. Generate Documentation: Produce detailed documentation for Python code using multiple AI models
  4. Evaluate Documentation Quality: Compute BLEU scores to compare generated documentation against a reference document

### OSFM - Markdown Editor

[osfm-md.vercel.app](https://osfm-md.vercel.app)

- Developed an AI-Enhanced Open-Source Markdown Editor with a focus on Cloud-Sync and User Productivity.
